File No. 2199.9080A(GRF)

Mr. Alex Dong
Western Division
Naval Facilities Engineering Command
P. O. Box 727
San Bruno, CA 94066

Attention: Ms. Louise Lew

Dear Mr. Dong:

Subject: Alameda NAS (West Beach) Landfill - Closure
Requirements of Order No. 83-35

Your reports on the construction of the leachate barrier and interim cover, and repair of the rock sea wall did not include any documentation to substantiate completion of these tasks as required by the subject Order. The report on Task 5.a. that was to determine the need for a containment structure around the remainder of the site and any other site improvements was due on January 1, 1986, but has not been received to date. Relative to these tasks, you are requested to submit the following information:

1. The as-built plans and construction detail of the leachate barrier and rock sea wall;
2. A proposal and schedule for completion of the one-foot cover; documentation on the acceptability of the cover should be provided;
3. A comprehensive site monitoring program proposal (to determine if additional perimeter containment is necessary) and a time schedule for its funding and implementation.

The above information should be submitted to this office by March 28, 1986. The request for this information is made pursuant to Section 13267 of the California Water Code. Failure to provide the requested information may subject you to civil monetary penalties of up to a \$1,000 per day of violation as assessed by the Regional Board. If these reports are not received by the above requested date, I will recommend that the Regional Board, pursuant to Section 13268 of the Water Code, administratively impose a fine for each day of violation until the report is received.

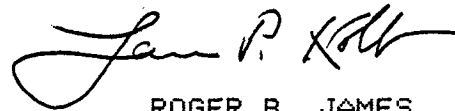

Mr. Alex Dong
